

AJAX PICKERING RAIDERS MINOR HOCKEY ASSOCIATION – TOURNAMENT RULES

Rule Addendum 1.1

- Rule Addendum regarding a player participating under suspension

The tournament is not responsible to notify teams regarding suspensions. Teams need to be diligent managing their own suspensions.

To be clear, it is the team manager's responsibility to record suspension's correctly on the game sheet.

The tournament committee will only accept suspension information from the center's home Regional Director or League Convenor for suspensions that did not occur in the tournament. The tournament is not responsible to chase down this information and it must be communicated directly to the tournament convenor via the RD or League Convenor. We will not act on information based on teams suspicions a player may be suspended.

Any player that participates while under suspension will result in the team forfeiting the game the player is participating in. A score of 2-0 will be posted and the association and league convenor will be notified for further disciplinary measures.

Due to the short time frame a tournament operates, any such incidents during round robin play must be brought to the attention of the tournament convenor no later than Saturday 8pm. We will not accept requests following this time. Semi finals and final game will go on as posted.

Any interpretation of this rule is solely up to the tournament convenor, with no appeal or protests.
